**Subject:** Microsoft Settlement

I believe that the proposed DOJ settlement with Microsoft is wrong and will further eliminate lawful competition with this criminal corporation. Do please consider changing the settlement to help struggling Operating Systems developers as well a browser developers.

Bill Horne

"Five minutes after any agreement is signed with Microsoft, they'll be thinking of how to violate the agreement. They're predators. They crush their competition. They crush new ideas. They stifle innovation. That's what they do." -- Massachusetts Attorney General Thomas F. Reilly
